

Etopia Solutions / Training & Conference Facilities

Hold your training event at Etopia

Etopia prides itself on offering an excellent training room hire service in central Glasgow.

Central Location

Our training centre is within the Lord Hope Building just 10 minutes walk from Queen Street Station and Buchanan Bus Terminus. The area around the training centre provides plenty of on and off street parking options.

A Warm Welcome

Delegates are greeted on arrival and looked after by our reception and on-site support team.

The Lord Hope Building

The building itself is both modern and business-like, and provides good access for people with disabilities.

Facilities

We can provide a variety of accommodation in The Lord Hope Building from computer training suites to meeting, conference and board rooms. All our rooms benefit from natural ventilation/modern air-conditioning. We very much welcome prior discussions with course organisers or trainers to ensure that exactly what is needed (layout, equipment) is prepared in advance. Flipcharts/whiteboards are provided and other equipment can be supplied upon request.

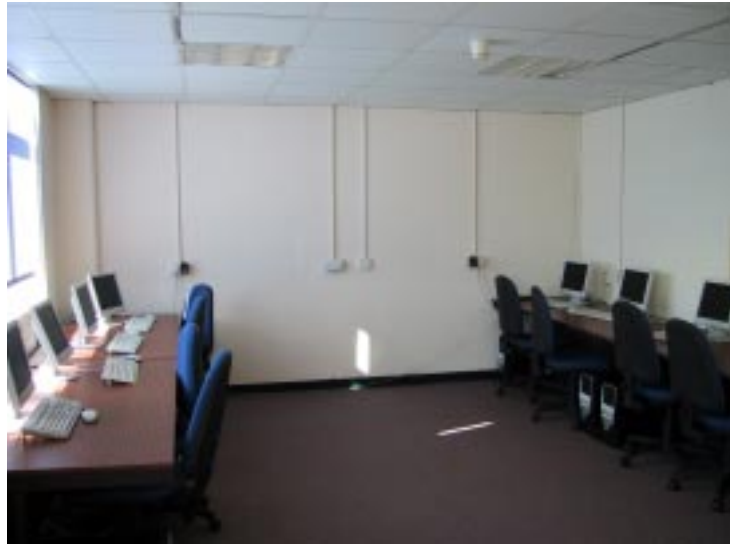

Conference and Meeting Rooms

Our conference and meeting rooms provide flexible accommodation and room layout to suit most event requirements.

Computer Training Suites

Our computer training suites are equipped with high-spec PCs and a digital projector. We are also able to provide internet access and a training room server to aid the sharing of files and to allow the teaching of server based applications. We are able to pre-install most popular software and the installation of organisation specific bespoke applications can be arranged.

Refreshments

Tea, coffee and chilled water is available throughout the training day. Delegates are usually provided with lunch at a nearby bar though a cold buffet can be arranged if this would be more suitable for your event.

Administrative Support

Administrative support is available throughout the day for sending and receiving faxes, photocopying and ordering taxis.
